

Planned Giving

Planned Giving creates a legacy that will extend your generosity into the future, confident that the values and assets you developed during your lifetime are passed on according to your wishes. With little or no current financial impact on you, this caring act may result in the largest and most lasting gift you ever make to the school. A misconception is that gift planning is only for the "wealthy." The truth is, people of all income levels can make a difference through gift planning. Many families have enjoyed increased income and generous tax savings by using various types of planned gifts. There are many possibilities to consider including a bequest, one of several forms of charitable trusts or a gift of life insurance. For all planned giving strategies, we encourage you to consult with your financial advisor, attorney and a St. Dominic Savio Catholic High School representative, when considering a planned gift. The lives that are touched at St. Dominic Savio Catholic High School, and the potential they hold, can be your legacy. Additional information can be found to your right or you may contact the Development Office at 512.244.4861.
